Dear Mr. Gale:

Earlier this year, a surface compliance inspection at the site of your operation (UTU-070664) revealed that reclamation has been satisfactorily completed. There is no reclamation obligation remaining at this site.

A copy of this letter will be sent to the Utah Division of Oil, Gas and Mining enabling them to close their case file for this operation. If you wish to restart operations in the future, you must first submit a new notice or plan of operations.

This acknowledgement of completion of reclamation work does not release nor waive any claim the Bureau of Land Management or other persons may have against any person under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. 9601 et seq., or under any other applicable statutes or regulations. If you have questions please contact Jerry Mansfield, Geologist, at (435) 743-3125.

Sincerely,

for Sherry K. Hirst
Field Office Manager
